It is admitted by all intelligent dry goods buyers, that our various lines and departments of fall merchandise are much better than any previous season. Our daily sales are also showing splendid gains, and this gives us courage and strength to battle for still greater results. We believe we do not exaggerate one speck when we say our lines of general dry goods are much the best in Branch county. Touching the cloak, millinery and fur departments, we have no equal in the state outside of Detroit.

Ex-Gov. Luce, in an interview with a representative of the Grand Rapids Herald, in regard to the home for the feeble minded, said:—"In the first place we must have 640 acres of land. Whatever help the feeble minded obtain must be found largely in work, and practical farming is the best possible sort. We visited the state institutions in Ohio and Indiana and were urgently advised to insist upon 1,000 acres; but possibly we can get along with 640. We're not particular where the land is located; but it must be good and fertile. We don't want any worn-out farms. The city that gets the home must have at least two railroads; for means must be provided to get freight to the grounds as cheaply as possible. We do not expect any of the towns will offer to donate all the land needed. Possibly some of them will promise 200 or 300 acres. Then there must be an accompanying guarantee that the additional land needed can be purchased within five years for not more than \$50 an acre."

A new grocery in town; everything in first class style; no old stock; all new, and our aim will be to please all that will come and see us. Call and look over the stock and see how pleasantly we are situated, and what prices we can give you. No. 12 Chicago street. C. B. SCHRONTZ.

With us it's not how big a store is but how strong the bargains. While our various departments occupy more space than any dry goods store in Branch county, and our stock undoubtedly is the largest in southern Michigan, we put no value to large rooms and empty space. The size of a room cuts no figure. It's the store that saves you money. It's where your dollars go farthest. We are hustling for more business by selling the best of everything below all possible competition. We are gaining more trade every day, and if you are with us the era of large profits in Coldwater is at an end.

Without doubt their old friends will be glad to have the privilege of again trading with them at the new store, which is one of the best in all its appointments in the southern part of the state. Everything is new and bought at prices existing since the financial stringency made it necessary for jobbers to move goods at some figure. Mr. Schrontz is in shape to meet competition, has first-class goods, gentlemanly salesmen, a new and clean store, and his must surely become a popular trading place.

Figures in an advertisement settle nothing. It's the quality, the perfectness, the width, the fashion, the pattern that must be considered with the price. We must be able to stand by our merchandise, not only in the store, but after the customer has taken it home. Chicago and Detroit houses do not care for you after the merchandise is taken out of the store. We have all the combinations to make our dry goods store one of the very best in Southern Michigan for you to patronize. The largest stock and best departments.
