C. W. Moore, so long with E. D. Leadders, and a few months ago made a traveling salesman for the P. Cox Shoe Mfg. Co. of Rochester, N. Y., yesterday received a telegram from that firm, asking him to go at once to New York to take charge of the city office of the firm. Mr. Moore leaves tonight for his new work. The congratulations of our people follow him. His promotion is deserved.

A very interesting case was argued in the probate court last week, requiring a three days' session to decide it. The defendant was Mrs. Mary E. Tucker, widow of the late G. S. Tucker. Some of her relatives residing at Ionia believed she needed a guardian, and filed a petition accordingly. They, however, lost the suit, and Mrs. Tucker will have full and unlimited charge of the estate.

Broken lines in fine oxfords are being slaughtered at Moore & Son's.

Our neighbor, the Courier, in its last week's issue, graphically describes the misfortunes that attended a gentleman of this city whose wife is enjoying the delights of a visit to the world's fair. There is a real touch of pathos in the Courier's description of the efforts of the lonely one, whose desire to secure a night's rest was only successful after he had traversed a coal bin in the cellar and laved in the waters of the bath. While sympathy must go out to the hero of the "night latch" and the "sill cock," there necessarily arises the trembling thought, what if he had been an editor?

Lot of new goods opened this week; we take special pains to keep full assortments all the year round.

C. D. Kennedy is one of the enterprising and successful farmers of Butler township in this county. Last year Mr. Kennedy was induced to plant a small piece of ground to butter beans for the seed house of D. M. Ferry & Co. of Detroit. The wet weather of last season was not propitious, yet so well did the experiment succeed, that Mr. Kennedy planted this year ten acres to this vegetable, while his neighbors followed his example and nearly one hundred acres of the township are now growing this bean, all to be used for seed. The price guaranteed is \$1.86 per bushel, and the outlook is fair for a yield of from 20 to 25 bushels per acre.

The W. R. C. received nearly \$15 from the ice cream social held in the park Saturday evening.
